*For immediate release*

### LifeSafety Power Receives LenelS2 Factory Certification under the LenelS2 OpenAccess Alliance Program

#### *LifeSafety Power's NetLink NL4 and NLX Network Communication Modules interface with the LenelS2 OnGuard access control system*

**Phoenix, AZ, September 21, 2021**—LifeSafety Power®, an ASSA ABLOY company, today announced that it has received LenelS2 factory certification and joined the LenelS2 OpenAccess Alliance Program (OAAP). LifeSafety Power's NetLink™ NL4 and NLX Network Communication Modules interface with OnGuard® access control software versions 8.0 and 7.6 to provide advanced power management for enterprise access control systems. NetLink adds proactive monitoring and management capabilities to LifeSafety Power's power systems, interfaces directly to the OnGuard platform and is engineered to handle applications which require network-management. Leveraging this new interface, all power system alerts are now viewable in the OnGuard software.

"LifeSafety Power has completed required factory testing at LenelS2 to validate the functionality of its interface to the OnGuard system. This interface to the OnGuard system allows users to add powerful remote monitoring capabilities to LifeSafety Power's access control power systems through an intuitive web browser interface," said John Marchioli, OAAP Product Management, LenelS2. "We look forward to their continued involvement in the LenelS2 OpenAccess Alliance Program."

"The ability to receive alerts and notifications on all power-connected systems through the OnGuard system brings greater intelligence to access control solutions," said John Olliver, Senior Vice President of Sales and Marketing for LifeSafety Power. "For the end-user and systems integrators, managed power improves the ability to preemptively assess power status for greater reliability and uptime."

#### About LifeSafety Power

LifeSafety Power is a premier manufacturer of intelligent power management systems for physical security and access control and the chosen standard for many Fortune 500 companies around the world.

LifeSafety Power has created new categories of access control power including intelligent power systems which increase the reliability of the security infrastructure, and prewired power systems which decrease labor while providing more consistent installations across an enterprise.  These innovations have led to LifeSafety Power becoming the power system of choice for leading access control panel OEMs throughout the security industry.

LifeSafety Power has won numerous industry awards for product design and innovation, including the prestigious Security Industry Association New Product Showcase, SSI Most Valuable Product and most recently the Security Today 2021 New Product of the Year.

LifeSafety Power is part of the ASSA ABLOY GROUP and is headquartered in Phoenix, Arizona. For more information, please visit LifeSafety Power or call (888) 577-2898.
