March 23, 2020

RE: LifeSafety Power considered Essential Business

To Whom It May Concern:

LifeSafety Power LLC, located at 899 E Park Avenue, Libertyville, IL 60048. Pursuant to the Department of Homeland Security (“DHS”) CISA’s definition of a “critical infrastructure” LifeSafety Power is considered part of the essential manufacturing sector.

The DHA defines “critical infrastructure” as the body of systems, networks and assets that are so essential that their continued operation is required to ensure the security of a given nation, its economy, and the public’s health and/or safety.

On March 20, 2020, Illinois Governor J.B. Pritzker ordered all individuals living in the State of Illinois to stay home or at their place of residence, except as needed to maintain the continuity of operation of the federal critical infrastructure sectors.

As a key supplier of security and access control power management systems to multiple industries designated as critical/essential infrastructure by Executive Order, LifeSafety Power will continue to operate to maintain the flow of critical materials to businesses across North America and around the world, while adhering to the Centers for Disease Control and Prevention and Occupational Health and Safety Administration’s guidance (e.g. social distancing, hand washing, and cleaning).

Please contact me directly with any questions,

Respectfully,

Larry Ye
